

What Our Clients Say

“

I would definitely recommend Edge and there are a number of reasons...dependability, reliability, flexibility & accuracy. Accuracy is the most important thing relative to background checks.

“

They're honest people that do what they say and they also do things without being asked which goes a long way as far as I'm concerned

The biggest factor for us is customer service. It's so nice to be able to reach out and immediately have someone to talk to. They are accurate, have fast turn-around times, are affordably priced and their system is so easy to use!
