

THE LEADING COMPLIANCE SOLUTION

I-9 Edge offers the leading cloud-based, mobile-enabled Form I-9 compliance solution. Developed by technical innovators, and experts in immigration law, the award winning solution enables full compliance with government regulations. Our experts work closely with the Department of Homeland Security to stay ahead of the ever-changing employment eligibility and compliance laws.

I-9 Edge virtually eliminates the risk of government fines by providing tools to create error-proof Form I-9s, that are digitally managed and securely stored in our world-class, Tier-3 SSAE 16 data center. The software fully integrates with the DHS's E-Verify system, with configurable options for each other.

Offering a personalized customer experience, I-9 Edge responds to your organization's specific needs and budget. I-9 Edge is designed for walk-up usability, customization, and effortless integration with your existing HR and onboarding platform.

REAL-TIME DATA VALIDATION

Easily create virtually error-free Form I-9s with our wizard driven, real-time data validation. I-9 Edge signals invalid data entry as the user types, eliminating the risk of human error, creating compliant I-9s every time.

DIGITAL I-9 STORAGE & PRINTING

I-9 Edge automatically secures, stores, and provides easy search for quick retrieval and printing of Form I-9s and audit trails.

ELIMINATE MISSED DEADLINES

Receive email notifications every time an employee's work authorization is about to expire with our "notify me" feature, or easily manage other deadlines from the dashboard, including TNC (Tentative Non-Confirmation) notices.

HIRE REMOTELY FROM ANYWHERE

Are you hiring talent in a multi-unit, staffing, telecommunications, technology, manufacturing, or an industry that involves onboarding remote hires? Companies who hire remotely are finding Form I-9 compliance to be challenging. For most organizations, the largest obstacle is completing I-9s within the required three days after the date of hire.

100% paperless and mobile-enabled, I-9 Edge Remote eliminates the hassle of hiring at a remote location where an employer is not present. I-9 Edge Remote also reduces the I-9 processing time from days to minutes. Our software solutions are customizable, allowing the user to organize Form I-9s by group or region, as well as, configure reports and permissions.

Use an authorized company agent, or one of 14,000 trained notaries available through our Partner Notary Network. Notaries trained on the I-9 Edge Remote system are proficient in accurately completing Form I-9s, and travel to your location to meet your new hire. New hires receive an email or text with instructions on how to complete the Form I-9.

MOBILE-ENABLED

Fully automated and 100% cloud-based, I-9 Edge Remote utilizes cutting-edge technology, assisted by mobile and dynamic routing technology. Complete your remote I-9 via tablet, smartphone, or laptop.

NATIONWIDE PARTNER NOTARY NETWORK

Gain immediate access to our network of over 14,000 notarized agents.

ELECTRONIC SIGNATURE OPTIONS

Mouse-to-Sign and Click-to-Sign provide the employer and employee the option to sign the Form I-9 using a mouse, stylus, or finger (if using a tablet).
